## **IMPROVED HINGE SUPPORTS**

**Service:** An improved hinge support **0133 002 227** has been designed and can be fitted. On models produced before serial number **92970263** a kit will be required **0609 100 387**. This is due to the modification required to the warmer drawer panel deck for fitment of these supports. Please see overleaf for instruction on fitment.

**OLD**

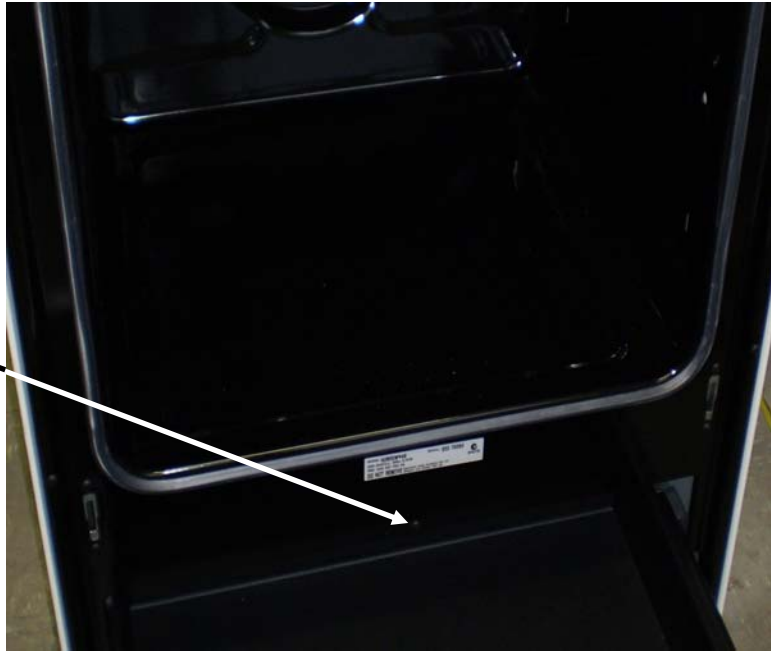

**NEW 0133 002 227**

1. Remove oven door and warmer drawer.

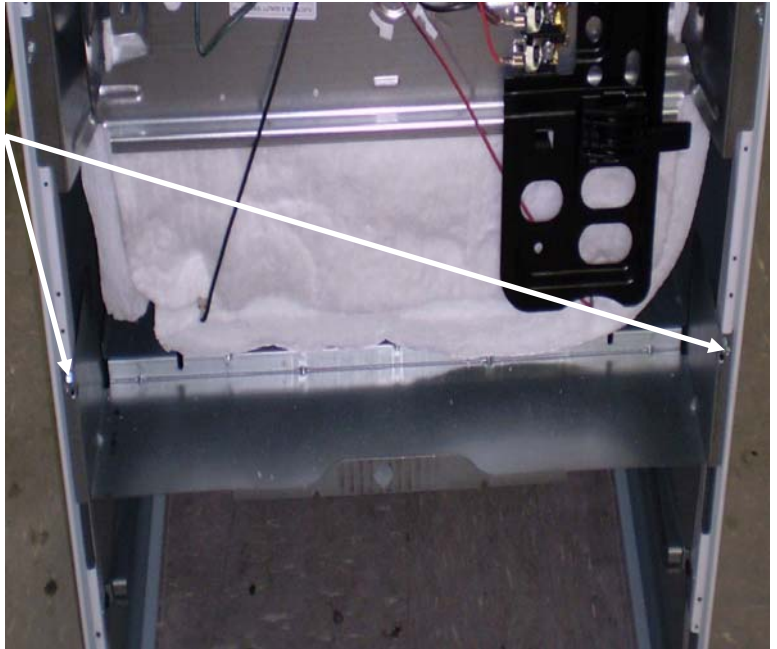

2. Remove centre screw.

3. Remove the back panel.

4. Remove warmer drawer screws x 2.

5. On pre serial number **92970263** the warmer panel will have to be removed and replaced using the one provided in the kit. Some models have elements and fuses; these will require transferring to the new panel. On post serial **92970263** the panel only requires moving back approximately 100mm.

6. Replace the hinge supports.

7. Re-assemble.
